What is a crisis?

Having a mental health crisis means different things to different people.

You might feel so distressed that you want to harm yourself, or someone else.

You might hear unpleasant voices, or feel that people are watching you or trying to hurt you.

It could help to tell someone you trust, maybe a family member or a friend. They can be with you and help you decide what to do. They can also contact services on your behalf.

If you are in contact with a mental health service:

Check your care plan, if you have one, and:

During office hours - contact your care coordinator or the duty number for the team that is supporting you.
